OBJECTIVE

I am Indy Agustin, a 2nd-semester Information Systems student at UPN “Veteran” Jakarta with a strong interest in business consulting, and technology especially backend development and UI/UX designer. I am passionate about exploring new experiences that have a meaningful impact on the surrounding environment. My technical skills include backend development using C and JavaScript, building and implementing APIs, and managing projects through to the deployment phase. In addition to technical expertise, I have strong soft skills in public speaking, leadership, talent acquisition, CV reviewing, and people engagement. I also have a solid foundation in business analysis and problem-solving.

EDUCATION

Universitas Pembangunan Nasional “Veteran” Jakarta
Bachelor’s Degree of Computer Science, Information System
Cumulative GPA : 3.94 / 4.00

Jakarta, Indonesia
2024 – Now

ORGANIZATION & LEADERSHIP EXPERIENCE

Internnet Indonesia | *Mentee*

Mei 2025 – Present

- Selected as 1 of 140 mentees from over 1,100 applicants nationwide.
- Receiving 1-on-1 mentorship from a professional at IBM (International Business Machines Corporation), a global leader in technology and business consulting.
- Participating in masterclasses led by experts from top-tier companies, including McKinsey & Company, Microsoft, Amazon, gaining knowledge in business strategy, consulting, and innovation.

Veteran Consulting Club | *Client Engagement*

April 2025 – Present

- Being a Talent Acquisition in Veteran Future Leaders and handling end-to-end recruitment process from administrative screening, CV scoring, to conducting interviews for 30+ applicants from UPNVJ, UPNVYK, and UPNVJT, based on clearly defined eligibility criteria.
- Sourcing and approaching 25+ potential clients weekly, establishing initial contact and qualifying leads to expand the client base.
- Presenting project ideas, progress updates, and deliverables during meetings with project management and clients, actively collaborating to identify and solve project challenges.

KSM Android UPN “Veteran” Jakarta | *Member*

November 2024 – Present

- Built 5 RESTful APIs with Express.js (MySQL & MongoDB), complete with CRUD and modular structure.
- Led backend development for capstone project: 6 APIs, 18 endpoints, role-based auth, PostgreSQL and Prisma, deployed via Vercel, documented with Swagger.
- Served as Event Division staff in *Tech for Society 2025*, and MC for 30+ participants.
- Being a participant in Android Challengers UI/UX and designing a mobile application project. Carried out the full Design Thinking process, resulting in a comprehensive proposal and a functional high-fidelity prototype.

Duta Baca Majalengka

2022 - 2023

- Promote reading interest in schools by organizing literacy activities, such as book launches, discussions and reading campaigns.

- Organize and coordinate with relevant parties to implement events and programs that support a reading culture in schools.
- Manage the budget and resources allocated for reading ambassador activities, including the procurement of books and other literacy materials.

Student Council | *Treasurer*

2021 - 2023

- Managed student council cash flow over 1 million, maintaining accurate and transparent financial records.
- Oversaw sponsorship and business fund management for the school's major event "Smanji Festival", handling a budget of over 20 million from 4 brand sponsors and student business income.
- Contributed to budgeting, financial planning, and fund allocation for various school activities.

PROFESSIONAL EXPERIENCE
